REICHSTAG IN AN UPROAR.

Dis follows When Socialist Says Germany Can't End War.

AMSTERDAM, March 25.—A brief session of the Reichstag today, to consider the emergency budget, was closed by the President today when factions of the Reichstag broke into angry disputes.

The short session was said to have been the most violent on record.

Herr Haase, a Socialist, started the trouble when he made a speech in which he declared that Germany would never end the war. He said that the best patriots are those who advocate an honest peace, a peace of protest, not from other Socialists. Members sprang to their feet and shouted at the speaker or argued excitedly with their neighbors in the House.

David, also a Socialist, shouted above the tumult to Herr Haase that his policy was causing a prolongation of the war. Others taking part in the discussion were Herr Ledebour, Scheide-mann, Dietrich and Suedekum.

When Herr Haase endeavored to resume his speech Socialists crowded about him shouting "traitor!" It was at the juncture that the President closed the sitting. Later when only a few Socialists remained the sitting was resumed.

According to reports reaching Amsterdam Herr Haase and seven other Socialists will form their own party under the name Socialist Labor Community.

ALLIES WANT PINK SALMON.

Remored Orders by France and Italy for 400,000 Cases.

Reports were circulated in packing circles yesterday of orders by the French and Italian Governments for 400,000 cases of Pacific coast pink salmon.

It was said that the order for the removal of salmon had been closed, but the general expression among the brokers in regard to the removal of salmon was of doubt. It being said in nearly all quarters that there was no adequate supply of pink salmon on the Pacific coast to fill such extensive contracts.

There has been a press of orders from European countries for salmon for some time, and it was pointed out as possible that those countries were anxious to place additional orders for several hundred thousand cases. Advances had been made by their agents. It was said, which could not be because of lack of supply. This year's supply of the fish does not begin to come in until the end of July.

RUSSIANS PRESS ON IN DWINSK REGION

Report Continuous Advances, Also Forcing of Artificial Obstacles.

HOLD JACOBSTADT GAIN

Special Cable Dispatch to The Sun.

LONDON, March 25.—Continuous advances by the Russians in the Dwinsk region are reported in the official Russian statement received here tonight. The forcing of numerous artificial obstacles placed by the Germans in a position northeast of Lake Sekia are also reported.

The statement is as follows:

On the western front, in the Riga district, there was artillery and rifle fire. In the Jacobstadt district our detachments are still developing our success southeast of Augustow. We occupied after hard fighting a fortified district and the village of Lepka.

There were many fierce German counter attacks. On the left bank of the Jacobstadt district south of Levechev fighting took place.

In the Dwinsk district our detachments are continuously advancing. North of Wilna the Russians attacked a position northeast of Lake Sekia despite the rapid fire and succeeded in forcing numerous artificial obstacles. The Germans fired numerous bullets. Northwest of Postavy the enemy's attempts to take advantage of a snowstorm to repair the damage done by our batteries. South of Poljesse there was crossfire.

In several districts our artillery was extremely active. No changes took place on the Galicia front.

The German statement is as follows:

West of Jacobstadt the Russians again opened an attack after having brought forward fresh Siberian troops and after strong artillery preparations had been made. The attack broke down, with heavy losses to the Russians.

Minor enemy advances southwest of Jacobstadt and southwest of Dwinsk were easily repulsed. All the enemy's efforts, even those repeated during the night against our front north of Volgy, were completely unsuccessful.

Further to the south, in the region of the Narotch Lake, the enemy limited his activity to artillery bombardments.

Notwithstanding rain and snow the fighting on the northern section of the eastern battlefield is almost constant. Heavy fighting took place during the night of March 29 and the morning of March 21 in a small sector south of Narotch Lake. Here the Russians concentrated "storm fire" and to save the

men the Germans retreated to their second line trenches. When the Russians charged in close formation the Germans hurled them back with great losses. The German soldiers pursued the Russians as far as Blinski before returning to their line.

South of Wilna the Russians held only a short time on March 21 trenches which they had previously captured. When the Germans succeeded in recapturing the trenches they took 400 prisoners and inflicted heavy losses, although suffering few casualties themselves.

HOLLAND GUARDS LINERS

Arranges for Wireless Protection

To Send Mine Sweepers Ahead.

LONDON, March 25.—The Dutch Government, as a result of protests of Dutch sailors and Dutch shipping firms, has organized a system of protection for Dutch vessels against mines.

The Government announced today that a vessel equipped with a wireless outfit will be stationed near the North Hinder lightship and a number of mine sweepers will be arranged to precede ships travelling between North Hinder and English territorial waters.

In its announcement the government says that it believes that the north of Scotland route is safer than that through the English Channel, but says that it assumes no responsibility, the decision concerning the route resting solely with the shipping companies.

It was announced yesterday that the Holland-America Line, with its transatlantic service, is believed that the risk of running the mine fields is the cause of this action. No date for resumption of the service has been specified.

Special Cable Dispatch to The Sun.

A surprise attack by the French last night in the Argonne district was successful. The German official statement announces that artillery set fire to the city of Verdun.

The French night communiqué was as follows:

We bombarded trenches of the enemy east of Hoesinghaet in the environs of Hett-Sar.

In the Argonne there were rather violent artillery engagements in the sectors of Le Four de Paris, Les Courtes Chaussees and La Haute Chevalerie.

The night passed quietly both west and east of the Meuse.

The German statement mentions activity only in the Verdun region, asserting that no changes took place on the entire western front.

The Berlin statement regarding operations in the west was as follows:

There have been no actual changes in the situation since yesterday.

In the Meuse district artillery duels were especially lively, and in the course of these engagements Verdun was set on fire.

British Repel Germans.

CASH FOR HALF YEAR OF WAR.

Fourth German Loan Sufficient, Treasurer Tells Reichstag.

LONDON, March 25.—The Amsterdam correspondent of Reuters quotes Dr. Kuefeler, secretary of the German Imperial Treasury, as telling the Reichstag that by the raising of the fourth German war loan of 10,000,000,000 marks (\$2,500,000,000) Germany has assured the financing of the war for the next six months.

Dr. Kuefeler is quoted as saying:

"Germany is the only belligerent power which has covered her total war expenditures by long term loans. That a nation of 70,000,000, cut off from the outer world by arbitrary acts in conflict with international law, should have borne for twenty months the heavy burden of the war, and should now again be offering to the fatherland more than 10,000,000,000 marks, is proof of greatness beyond praise of words. It signifies that our strength is unbroken, our confidence in final victory unshaken and that the German people stand united."

What Kind of Bread Does Mother Like?

WARD'S TIP-TOP BREAD

Why? Because it slices clean without crumbs and butters without breaking.

Father eats bread—what kind does he like? Again, WARD'S TIP-TOP BREAD.

Why? Because it makes delicious toast, crisp, golden brown and appetizing enough to add zest to his coffee and eggs and make him enjoy his breakfast.

Do the youngsters like TIP-TOP?

Do they!

Just watch them at breakfast, dinner and supper and hear them ask for "some more TIP-TOP, mamma, please."

Notice, too, how they can "put away" a couple of generous slices after school hours.

Do the youngsters like WARD'S TIP-TOP BREAD?

They do—so does mother—so does father—so does every family that tries it.

Another good reason why mother in particular likes it is she knows it's CLEAN and PURE. Father knows it's "there" with the taste and flavor and the kiddies just naturally "take" to it.
